

Methodologies. Pros and Cons

Task 1

Description

Homework:

Learn about Waterfall and what are the main advantages and disadvantages of it.

Create a table of pros and cons of each of the studied software development methodologies on your own.

Waterfall

Advantages:

1. Adapt to shifting teams
2. Forces structure organisation
3. Allows for early design changes
4. Suited for milestone-focused development

Disadvantages:

1. Nonadaptive Design Constraints
2. Ignores Mid-Process User/Client Feedback
3. Delayed Testing Period

Table of pros and cons of Development Methodologies
